Game is simple, great music and colourful gameplay. you need to F U * K I N G click and drag to shoot but it SO UNRESPONSIVE!

Other than that its a decent puzzle game. Negitive review though because it is more frustrating than good.. Ez unlock 100 Achievements %100. Actually a really great 3D platformer hidden inside a REALLY subpar third person shooter.. Completed it in a little under 2 hours, got stuck twice, but it's not a hard game. Found the jumping a little frustrating at times, like he'd jump longer than antisipated. Overall I liked it, it looks pretty, switching beside before and after in time looks good.. Spent two hours of my life for this masterpiece.

You will use this set for a while, but by the time you start routinely using those #4/0 lures, (Florida L18) start looking for heavier equipment, Good luck.. I do like this game, its part simulator and part arcade game, it has good graphics and its has lots of action and room for you skills to grow, to become a a terror in the sky, but, one thing I just can't get over is the fact that when your in a game, on a mission, and you see enemys and friendlys, the enemys are Blue and the friendlys Red, WTH? no way to change it, and I can't change a lifetime of enemys being red, and friendlys green or blue. so I don't want to have to force my brain waves to change direction which is what it would feel like, lol. so I won't be playing this anymore, and will check once in a while to see if they added the chance to change those colors.. This game is pretty cool! It feels a lot like the Advance Wars games for GBA but with faster-paced combat and a compelling mana economy. Has a good campaign mode so it might be worth checking out even if you're not into multiplayer. I recommend it if you're looking for a game to make you think!. A highly enjoyable action-puzzle game from the good folks at Pop cap. Full of color and personality, Zuma's Revenge offers both a good casual experience and a truly demanding challenge of reflexes and reactive thining, depending on the diffuculty level..
Haiku Review:

A Long, Painful Road

To the Tower of Secrets

To Find Who You Are. it's a good game, I'm youst to dark stuff but this game was just... WOW!. My friends and I have been looking for a bomberman kinda game forever. It's so much fun and is hella cute. It's great that it's free to play, so I decided to buy the cosmetics to support the devs. Thanks for the fun game ^^.
